MINING AND OIL NEWS.

BIG MINING DEAL CLOSED AT TORREON

German Capitalists Add Another Valuable Property to Holdings.

Torreon, Mexico, June 2 .- The Penoles

Mining company, operating the famous Ojuela mines and the Mapimi smelter, one of the largest in Mexico, has just acquired control of the San Juan Min-ing company, owning the San Juan mining properties in the Mapimi district. The news of the Pengles company having closed the deal for 51 percent of the stock in the San Juan caused excitement in mining circles here. The San Juan Mining company was organ of \$20, and, as usual, with gold mining properties, it was with difficulty that the shares were placed among friends of the organizers in this vicinity. The

price paid by the purchasers is \$400 per

share, being on a basis of two million

dollars for the entire properties. With the legal transfer of 51 the standing offer of the Penoles company to pay at the rate of \$400 per share to the remaining stockholders will hold good for 30 days, and it is probable that most of them will sell. The Penoles Mining Co. is composed principally of German capital and the heaviest stockholders reside in Germany. They operate one of the richest proper-ties in all of Mexico and millions of dollars in dividends are sent out of this

country yearly to them. The San Juan properties are located between the smelter and the Ojuela

FILING ON OIL LAND NEAR TOYAH

El Paso, Tovah and California Men After Land East of Here.

During the past two days there have been several filings on land in that ection near Toyah and not far distant from the well sunk and capped by the Texas company. County surveyor J. W. Eubank, who

must survey mineral land in connec tion with his duties as a county officer, has received several applications which are now on file in his office, three of them having been received from Toyah Thursday afternoon. The applicants who have served notice of liling are A. B. Schrock, section 39. Lundrop, south one-half of section 38 and north one-half of section 18, block 52; Brooks Dalton, west one-half of section 25 and east one half of southrest one-quarter of section 35, block 52, public school lands, all of these appli-cants being from Toyah, Tex. C. A King, east one-half of section one, block | 45; W. R. Piper, south one-half of section 18, block 52; L. R. Villars, north one-half of section 16, block 52, El Paso county public school lands, these appli-cants being of El Paso; F. W. King. section 14, block 62, township seven. T. P. surveys, King being from Sanderson, Tex.; J. A. Smiley, of Woodland, Cal, section 30, block 61, township one

T. P. surveus. All of these applications are made as mineral prospects and in connection with this, oll may be bored for. Jos. J. Plowman, of Toyah, has filed in section 1. block 52, public school of fertilizer being thought to be more

The Guggenheim interests who had bid for the property withdrew their bid. The new own er will resume operations at once.

MINING AND OIL NEWS.

RICH ORE FOUND IN SOCORRO MINE

Ernestine and Deadwood Mines Progressing—Mo-

gollon District News. MogoHon, N. M., June 3 .- At the Socorro Mines, probably the most significant of the many encouraging developments is the value of the ore body in the 800 east, the bottom level, approximately 1000 feet below the spex of the Little Fannie vein. The vein is six feet wide and averages \$40 per too, which is four times the value of the surface ore. A new discovery has been mother lode, of which this company owns 4500 lineal feet, including the famous Consolidated mine, which has one of the largest gold and silver crop-

The Eracstine Mining company, owing to the unusual dryness the past cent of the stock, it is understood that few months, is finding its water supply somewhat diminished, and hung up the stamps for 30 hours while cleaning out he sump at the pumping station. milled during the week was on this account but 563 tons, with 45 sacks of oncentrates. No bullion clean-up was

The Deadwood mines have started work in the shaft and will sink to the 600-foot level.

The Helen Mining company owner is expected from Denver to close a deal n connection with the overhauling of the mill and power plant at Graham. The pipe line is being rapidly installed. the Queen mining company, an examination of the holdings, Queen vein, will soon be made by prospective purchasers. It is one of the xtensive, low-grade properties of the

EXTENSIVE COPPER ORE

CHUTE IN MIAMI DISTRICT From its ming in the northern part of the Miami district, Arizona, the rior Development company is continuing shipments of high grade copper ore at the rate of 100 tons a day to the El Paso smelter, the ore averaging nine and five-tenths percent copper, being targely copper stitcates. The west drift on the 300-foot level is showing one of most extensive high grade copper ore chutes ever developed in the Globe-Miami district. Over 80 men are employed in the property. #

GLOBE MAKE GOOD SHOWING The two churn drills working on the Colorado mine of the Inspiration Min-

hurn drilling on this company's properties shows the ore body has its greatest vertical depth along the well defined contact, between the granite and Pinel schist, being in many places between 300 and 400 feet. RAY CONSOLIDATED MINE IS PROVING UP TONNAGE The Ray Consolidated, which at the end of 1908 only claimed a developed copper ore tonnage of 3,700,000 tons. has now nearly 42,900,000 tons in its

mines in Ray, Artzona, proved by churn

drills, and is rapidly opening up this

ore and converting what may be re-

ng company in the Globe district, Ari-

zona, have encountered good grade cop-per sulphide ore at 500 foot depth. The

tonnage. It is believed that there will be fully 100,000,000 tony blocked out in this wonderful copper-porphyry mine in the near future.
